

## Guatemala – List of assessed projects

As part of its research, the [Gender Financing Project](#) assessed the availability and quality of 23 key gender equality projects for Guatemala. Taking the [OECD Creditor Reporting System data for 2018](#) as a starting point (which at the time of research was last updated in May 2020), we identified five donors with the highest self-reported disbursing projects for Guatemala in 2018 with a significant (1) or principal (2) [gender equality policy marker score](#): the US Agency for International Development (USAID), the Swedish International Development Authority (Sida), the German Ministry for Economic Cooperation and Development (BMZ), Global Affairs Canada (GAC), and Spain's Ministry of Foreign Affairs and Cooperation (Spain MFA). We then identified these donors' five highest-disbursing gender equality projects (except for Spain MFA, who only reported disbursements for three projects).

Below is an overview of all 23 assessed projects, organized from highest to lowest disbursements. To give a sense of the purpose of each project and to what extent it focuses on improving gender equality, we have included the sector(s) which the donors have indicated the project intends to target (using the 'SectorName' field) and the gender scores (using the 'Gender' field) as reported to the OECD. Please find hyperlinks for projects where more (up-to-date) information is available on IATI or donors' own portal.

#	Project title	Donor	Disbursement in 2018 (USD)	OECD gender score	Reported to IATI?	Reported on donor portal?
1	Youth and Gender Justice Program	USAID	9,019,980	1	<a href="#">Yes</a>	Yes, see <a href="#">FAE</a>
